17411 Irvine Blvd. Suite D, Tustin, CA 92780

- *Learn how our programs can help your child or client*
- *Learn about the visual management of learning disorders*

- *Review testimonials, case studies and outcomes*

- *Tour our facility, including Sensory Learning & Vision Therapy clinic*

The Sensory Learning Program is a multi-sensory and foundational program that simultaneously stimulates the visual, auditory and vestibular systems to improve self regulation!

We also offer **Visual Management of Learning Disabilities** by enhancing learning and organization including visual processing in Developmental Delays, ADD/ADHD and children on the autism spectrum to improve attention, comprehension and independence.

Find out how these programs, in combination, offer a truly comprehensive developmental learning experience for your children and clients!

Seating is limited. RSVP @ (657) 900-2115/ ocvisiontherapy@gmail.com to confirm your attendance! Visit our website @ www.visionperformanceoc.com
